EDUCATION

-  **BSC. COMPUTER SCIENCE (FIRST CLASS HONOURS)**

MASINDE MULIRO
UNIVERSITY OF SCIENCE
AND TECHNOLOGY
2024

SUMMARY

-  Flutter engineer who **single-handedly** shipped Kenya's most comprehensive telehealth platform - from zero to App Store & Play Store in under **3 months**. I don't just build apps, I own them. From brand identity to architecture to deployment, I've delivered full-scale mobile products solo across **fintech**, **healthtech**, and **real estate**. **4+ years**, zero critical post-launch incidents, **70K+** downloads on a personal project, and a clean architecture obsession that never quits.

TECHNICAL SKILLS

LANGUAGES & FRAMEWORKS

Dart, Kotlin, Java, Flutter (3.x),
Jetpack Compose, Android SDK.

ARCHITECTURE & CORE

Clean Architecture, MVVM,
SOLID Principles, TDD,
Coroutines & Flow,
Dependency Injection (Get_It,
Hilt), **Storage** (SharedPreferences,

WORK EXPERIENCE

SENIOR FLUTTER ENGINEER & UI/UX | JAN 2026 - PRESENT

HEALTHX AFRICA, FULL-TIME

- **Single-handedly rebuilt Kenya's flagship telehealth platform** from scratch - owning the full product lifecycle across research, design, architecture, development, QA, and release on iOS & Android.
- **Designed the entire product UI/UX** with no designer or PM - including information architecture, component design, and user flows across 10+ feature modules.
- **Established HealthX Africa's brand identity** - typography, colour system, design guidelines, and company slogan; assets now used company-wide by the marketing team.
- **Architected a scalable Feature-Driven Clean Architecture** (data / domain / presentation) with Riverpod 3, serving as the foundation for all current and future feature development.
- **Shipped real-time video/voice doctor consultations** via LiveKit, e-pharmacy with delivery, appointment booking, biometric auth, and secure medical records.
- **Managed full App Store & Google Play deployment** - submissions, staged rollouts, TestFlight/Firebase Distribution betas, and Kenya DPA 2019 compliance.

FLUTTER DEVELOPER | APR 2024 - SEP 2025

DENTSU KENYA, CONSULTANT

- **Performance & Quality:** Engineered a complete architectural rebuild of the legacy **MyBritam** insurance platform, directly driving a **Google Play rating surge from 3.1 to 4.1 stars** through improved stability and UI/UX modernization.
- **DevOps & Efficiency:** Established automated CI/CD pipelines (GitHub Actions, Azure DevOps) to streamline testing and delivery, enabling synchronized, error-free releases across **Android, iOS, and Web**.

Hive, Isar, RoomDB), **Testing** (Mocktail, Mockito, JUnit, Espresso), Offline-First Sync.

STATE MANAGEMENT

Bloc/Cubit, Riverpod, Provider, GetX, ViewModel (Compose), Unidirectional Data Flow.

BACKEND & CLOUD

Supabase (RLS, Edge Functions, Auth), **Firestore Ecosystem** (FCM, Firestore, Analytics), REST (Retrofit), GraphQL, PostgreSQL, Cloudflare R2.

DEVOPS & TOOLS

Gradle, Maven, **CI/CD** (GitHub Actions, Azure DevOps), **Workflows** (Jira, trello, Clickup, Azure) Git, Docker, Figma, Amplitude, Sentry.

SECURITY & AUTH

OAuth2/JWT, Supabase RLS, Session Tokens, Data Obfuscation

3RD PARTY SDKS/LIBRARIES

Google Maps, Paystack, Stripe, M-PESA Daraja API, Rive Animations

- **Unified Experience:** Achieved 100% feature parity across web and mobile platforms using a modular Clean Architecture that supports deep linking, real-time WebSocket updates, and secure authentication.

FLUTTER DEVELOPER | MAY 2023 - MAR 2024

PODII CONSULTANTS, FULL-TIME

- **Internal Tooling:** Developed **Elvs Mobile**, a business workflow application that improved operational efficiency through role-based access control and structured UI flows.
- **Offline Engineering:** Built robust offline synchronization and state restoration logic using SQLite, ensuring data integrity in low-connectivity environments.

PROJECT HIGHLIGHTS

HEALTHX AFRICA - FLUTTER UI/UX ENGINEER & PRODUCT OWNER | TELEHEALTH · FLUTTER · LIVEKIT · RIVERPOD 3 · HIVE · FLUTTER SECURE STORAGE | JAN 2026 - PRESENT

- **Full lifecycle ownership:** Sole engineer and designer on Kenya's most comprehensive telehealth platform - research, brand, architecture, development, QA, and dual-store release, all solo.
- **Product:** Real-time video/voice consultations (LiveKit), e-pharmacy with delivery, appointment booking, biometric auth, and Kenya DPA 2019-compliant medical records.
- **Architecture:** Feature-Driven Clean Architecture (data / domain / presentation) with Riverpod 3 and code generation, built to scale across expanding feature modules.

MYBRITAM (BRITAM INSURANCE) - FLUTTER DEVELOPER | INSURANCE · FLUTTER · CLEAN ARCHITECTURE · GITHUB ACTIONS · AZURE DEVOPS | APR 2024 - SEP 2025

- **Rating impact:** Led complete architectural rebuild of a legacy insurance platform, driving Google Play rating from **3.1** → **4.1** stars through stability improvements and UI/UX modernisation.
- **Cross-platform parity:** Delivered 100% feature parity across Android, iOS, and Web from a single modular codebase with deep linking and real-time WebSocket updates.
- **DevOps:** Established CI/CD pipelines (GitHub Actions + Azure DevOps) enabling synchronised, error-free releases across all three platforms.

CRIBLYNK - FOUNDER & LEAD DEVELOPER | REAL ESTATE | SUPER APP | FLUTTER · SUPABASE · CLOUDFLARE R2 · | JUL 2025 - PRESENT

- **Architecture:** Architected a modular super-app for rentals and services using Flutter and Supabase.
- **Backend Logic:** Integrated Supabase Row Level Security (RLS), Edge Functions (RPCs), and Cloudflare R2 for high-performance media storage.

- **Features:** Implemented multi-experience flows, dynamic theming, and real-time push notifications.

[Google Play](#)

• FLOW MUSIC PLAYER (70K+ DOWNLOADS) | PERSONAL PROJECT | FLUTTER

| MEDIA | FLUTTER · SOLOUD ENGINE · GITHUB · LOCAL STORAGE, ANIMATIONS

| JUN 2023 - PRESENT

- **Performance:** Built a highly optimized, offline-first media player featuring a custom audio engine (C++ Soloud Engine) and fluid gesture navigation.
- **UI/UX:** Designed a deeply customizable interface with dynamic theming and animation-rich visuals, achieving high user retention.
